DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-7 and 10 are rejected under 35 U.S.C. 102(e) as being unpatentable over Groove et al. (U.S. 6,820,133).

Groove et al. disclose a method of predicting a file download time, comprising:

- periodically initiating a test probe (ping; col.15, lines 27-55) from a server to a given point in a network in lieu of performing a file download; (col.17, lines 5-25)
- collecting network performance data generated from the test probes; (col.17, lines 5-25)
- computing an exponentially time-weighted average of the network performance data to generate a value predicative of the file download time; (col.18, line 53-col.19, line 11)
- wherein the test probe is a ping; ("ping")
- wherein the network performance data is latency; (abstract; col.4, line 65-col.5, line 16; col.15, lines 28-55)
- wherein the performance data is packet loss; generating a value indicative of the file download time, wherein the value is a function of the time-weighted average of latency

Art Unit: 2143

modified by a penalty factor that is a function of the time-weighted average of loss.

(col.6, line 51-col.6, line 14; col.9, lines 53-64; col.27, lines 36-57)

Allowable Subject Matter

3. Claims 4-5 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims 8-9 are allowed.

Response to Arguments

5. Applicant's arguments with respect to claims 1-7 and 10 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 2143

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
